Problems Of to Bay Cities', Topic at Rotary

Problems of immediate import to the cities of the North Bay area, as well as those affecting the industrial and residential expansion of these cities will be discussed in detail before members and guests of the Albany Rotary Club at next Tuesday's luncheon meeting.

The speaker will be Edwin S. Howell for the last three years Manager of Richmond. In announcing the title of his talk Mr. Howell says:

"It is my intention to point out the facts concerning the growth and expansion of our North Bay area communities and to acquaint our members with the problems that must be solved if we are to remain competitive with other areas residentially, commercially and industrially."

"Ed" Howell is a brother of Albany Mayor Lewis M. Howell, and was a resident of Albany for the 21 years. He has served in Federal, State, County, Municipal School District organizations and is unusually well fitted to discuss the problems of a district which he knows so well.

Howell served for two years as the first city manager of El Cerrito, and for four years as County Administrator of Alameda County. He is a member of the League of California Cities, the International Managers' Association, the American Public Administration Society, Western Government Research, the American Municipal Association and the U. S. Conference of Mayors.

Over the years the speaker has been recognized for his contributions to civic betterment, both personally and professionally and lists among his many awards the Public Service Award of the Albany Fraternal Order of Eagles (1940), Albany Lions Club Public Service Award (1952) and the California Heart Teachers' Association Life Membership Award (1944). He is a member of the Richmond Rotary Club.

Howell recently celebrated with wife Margaret, their 24th wedding anniversary. They have two sons, Bob 15, Dick 11, and one daughter, Joyce, 7.

There will be no regular program at the luncheon on Tuesday, Nov. 19, but a panel session will be held for the purpose of makeups, at evening the club will have its annual Assembly at Spenger's restaurant, starting at 6:30 p.m. The club's luncheons are all held at Spenger's on Fourth Street, Berkeley, just north of University Avenue.

SPEAKING CARDS

LET'S PLAY BALL!

Baseball, that is. You can play
this version of the game anywhere
—rain or shine—and you don't
need much equipment either. Just
assemble a few decks of playing
cards and you're ready to play
"Baseball With Cards."

This is a
game of
chance, in
which the
various
plays of a
baseball
game are
deter-
mined by
turning cards up from
the pack. The game is ideal for two
but can be played by more, the
greatest number of runs winning in
any case.

To help you keep track of the
position of the runners, draw a
baseball diamond on a sheet of
paper and use tokens to represent
the players.

Now shuffle together three full
decks of 52 cards each (two packs
or even one may be used but three
is preferable). Take out two aces
of Spades, two Aces of Hearts, two
deuces of clubs and one deuce of
diamonds. One player then turns
cards from the top of the pack,
scoring hits, runs and outs accord-
ing to the following schedule:

Ace of Spades—home run
Ace of Hearts—three base hit

Ace of Diamonds or Clubs—
double, runners score
King of Spades—double, runners
advance two bases
Other Kings—single, runners ad-
vance two bases
Any Queen—single, runners ad-
vance one base
Jack of Spades or Hearts—base
on balls
Jack of Diamonds or Clubs—ball,
runner nearest first base steals
a base unless occupied
Any 10 or 9—ball
Any 8, 7 or 6—strike
Any 5—batter out, runners ad-
vance one base
Any 4—batter out, runners hold
bases
Any 3—out; with any man on
base, runner furthest advanced
is out, batter safe at first base
Spade deuce—strikeout
Heart deuce—double play, pro-
vided runner is on base
Diamond deuce—batter and all
runners out
Club deuce—triple play, retire
side even with no man on base.
If you use only one deck of cards,
you should count the Ace of Spades
as only a chance for a home run.
The batter then turns up another
card and if it is a face card, the
home run counts. Without this rule,
there would be too many home
runs using only one deck of cards.
A nine inning game played with
this schedule usually winds up in
a final score of 9-7 or thereabouts
—ideal for a home game. So choose
up sides and "let's play ball!" with
cards.

Heart Group Seeks Volunteer Women Aides

Dr. Gordon Lamb, president of
the Alameda County Heart Assoc-
iation, this week announced that
the Association is most anxious to
contact Albany women who are es-
pecially interested in the cause of
diseases of the heart and blood ves-
sels.

The county-wide Association is
now preparing for its first Alameda
County Heart Sunday to be held
in all communities of Alameda
County on Sunday, February 23,
and is recruiting and training in-
terested women to be leaders in
the activity. "The one-afternoon
campaign has been broken down
into a variety of jobs, each of which
only occupies the woman for that
one afternoon, but, in order for
preparation of materials, etc., we
must have them signed up before
December 1st," said Lamb.

"The City of Albany requires
three Area Chairmen and fourteen
District Captains," Lamb contin-
ued. "Women are assigned to their
home neighborhood and are not
required to leave their homes ex-
cept for the turn-in of funds. Nei-
ther of these two positions call for
the recruitment of door-bell-ring-
ers."

Interested Albany women are
asked to call the Association head-
quarters at Highgate 4-3568 or
write Alameda County Heart As-
sociation at 121 East 11th Street,
Oakland.

Laws Governing Teenage Drivers Listed by AAA

Parents of teenage youngsters should be familiar with the changes and clarifications in the law governing driving instruction permits and junior operators, says the California State Automobile Association. Here is a summary of the new provisions:

1. Teenagers are issued driving instruction permits only when they are 16 years old unless they have taken a course in behind-the-wheel training and then they can get an instruction permit at age 15½.

2. Any driver accompanying or supervising the holder of an instruction permit must be 18 years old or older.

Junior operators' licenses have been abolished and a new program of junior permits has been set up. Upon application, successful completion of tests and compliance with all Vehicle Code requirements, a 14- or 15-year old, whether a rural or urban resident, may be issued a junior permit provided that one or more of the following circumstances exist:

1. When school or other transportation facilities are inadequate for regular attendance at school and at activities authorized by the school. The application for a junior permit must be accompanied by a signed statement from the school principal verifying such facts. A junior permit issued under this provision is restricted to operating a vehicle from the residence to the school and return.

2. When transportation facilities are inadequate and operation of a vehicle by a minor is necessary due to illness of a family member, the application must be accompanied by a signed statement from a physician familiar with the condition,

containing a diagnosis and probable date when sufficient recovery will have been made to terminate the emergency.

3. When transportation facilities are inadequate, and use of a motor vehicle is necessary in the transportation to and from the employment of the applicant and the applicant's income from such employment is essential in the support of the family, or where the applicant's operation of a motor vehicle is essential in an enterprise from which an appreciable portion of the income of the family will be derived. The application must be accompanied by a signed statement from the parents or guardian, setting forth the reasons a permit is necessary.

MOTOR VEHICLE MILES

Passenger cars account for more than 80 per cent of all motor vehicle miles traveled in the United States, according to the National Automobile Club.

THE OIL INDUSTRY

In the past 22 years the oil industry has discovered twice as much oil as in the 72 years from 1859 to 1931, reports the National Automobile Club.

Tax Collections At New Level Says State C. of C.

State and local property tax collections have increased two and one half times in the 10 years from 1946-47 to 1956-57. Since 1955-56 there has been an increase of over nine per cent. This was disclosed in a study released by the California State Chamber of Commerce. In reporting on it, Lloyd W. Dinkelspiel, chairman of the Chamber's Statewide Tax Committee, stated that major taxes and licenses collected by the State and all property taxes received by local government increased from \$1,239,338,294 in 1946-47 to \$3,384,383,650 in 1956-57. The 1955-56 total collected is \$3,102,285,546.

State tax collections totaled \$742,670,427 in 1946-47 compared to \$1,816,383,650 in 1956-57. Total for 1955-56 is \$1,704,787,186 which is \$111,596,464 less than in 1956-57.

A half dozen taxes and licenses contributed \$945,398,476 of the increase over the 10 year period; these were: sales and use tax, \$361,930,333; motor vehicle fees, \$89,824,823; bank and corporation taxes, \$108,188,251; personal income

tax, \$92,120,514; automobile "title" tax, \$77,566,403; and motor vehicle fuel tax, \$215,768,152.

Of the 1956-57 \$3,384,383,650 total, the State tax collections constituted 54 per cent and local property taxes constituted 46 per cent. In 1955-56 the percentages were essentially the same, whereas 10 years ago State tax collections were 60 per cent, local property tax, 40 per cent.

City sales tax and property tax, levied by counties, cities, and school and other districts, went from \$496,667,867 in 1946-47 to \$1,568,000,000 in 1956-57, a rise of \$1,071,332,133. This increase was divided as follows: city sales tax, etc., \$99,714,239; school districts, \$485,171,324; special districts, \$86,987,631; counties, \$250,068,376; and cities, \$149,390,563. Local property and city sales taxes in 1956-57 show an increase of 12 per cent above 1955-56.

Man, governed by immortal Mind, is always beautiful and grand. Each succeeding year unfolds wisdom, beauty and holiness. — Mary Baker Eddy.

Village School Parents Adopted By Vista P.T.A.

Parents residing in Albany's University Village have been extended an invitation to avail themselves of membership in the Parent-Teacher Association of Vista School, according to Mrs. George Ferreira, president of the Vista unit.

Grade age children of student residents in the university housing are now in attendance at both Cornell and Vista Schools in Albany, with some of kindergarten age attending sessions on the university property in a special kindergarten class provided by the Albany Unified School District. Of insufficient size to maintain its own parent-teacher organization, this kindergarten class will be provided by Vista PTA with the same benefits afforded Vista students by special approval of the Vista PTA executive board, which recently voted to "adopt" the University Village kindergarten, offering PTA membership to the parents and sponsoring holiday parties and last day of school festivities for the children.

New Enlistment Plan for Marines

A big break to the Marine Corps Recruiting program came today in an effort to ease the pressure caused by the present three to four month waiting list an applicant must face prior to enlisting. Local recruiting sergeants within the Bay Area have been informed that young men eager to enlist but unable to do so due to the exceptionally low quotas, may now enlist then wait up to 120 days prior to leaving. This is a special program designed primarily to aid the High School and College Seniors who intend to enlist after the school term.

Women At The Wheel

TRIP PLANNING—More women than ever before are taking driving vacations by themselves or with another woman friend, reports the California State Automobile Association. To avoid irritating "lost time," the Association's Touring Bureau suggests that you acquaint yourself with the trip on a map before starting out. Knowing key turn-off points and landmarks ahead of time makes long-trip driving much easier and safer.

MOBILE FARMERS

According to the National Automobile Club, latest figures indicate that there are 2,702,811 trucks and 4,262,785 passenger cars on farms in America.

Driver Fatigue Frequent Causes Of Auto Accidents

Fatigue and sleepiness are definite accident causing factors in traffic says the California Highway Patrol.

"Last year in California we averaged 270 fatal and injury traffic accidents per month charged to drivers apparently asleep, or where fatigue was an element," Patrol Commissioner B. R. Caldwell declared.

"Fatigue and sleepiness are generally the result of excessive hours of driving or driving without sufficient rest or sleep prior to the trip," Caldwell stated. "The control of this problem obviously, adequate sleep and rest plus less travels hours on long trips.

"If it is necessary to drive long hours, share your driving and stop frequently so you can get out and stretch," he concluded. A substantial breakfast but no heavy meals during the driving hours and a good night's sleep will help you stay alert and prepared to avoid the hazards of fatigue and sleepiness behind the wheel."

Try your skill in gift first, and then in gold. — John Ray.

ST. ALBAN'S EPISCOPAL

7:30 a.m. Holy Communion. 9:15 a.m. Family Service. Nursery care provided. Public recognition and installation of faculty, music personnel and other workers in the Church School. Church School classes for all age groups, including adult Bible class taught by the rector.

11 a.m. Morning Prayer and sermon on: "My Treasure: How Much to God?" Nursery care is provided and a coffee hour, to which all are invited, follows.

Following each of the three services, polls will be open for a convenient time to enable qualified voters of the Parish to ballot for delegates and alternates to the 108th Annual Convention of the Episcopal Diocese of California to be held in Grace Cathedral, San Francisco, February 4, 1958. Such delegates

and alternates will be elected to meet at the annual parish meeting of St. Alban's Church in January 1958. This "pre-view" election is being held now so that the elected persons can familiarize themselves with the qualifications of the various candidates whom the diocesan nominating committee is placing in nomination for the office of Bishop Coadjutor of the Diocese of California.

St. Alban's will elect in the lay order two men delegates and two men alternates, and one woman delegate and one woman alternate.

The rector of St. Alban's, the Rev. John Hathaway Blackledge, will automatically be a delegate to the convention, with vote in the clerical order for the new Bishop Coadjutor.

LAW IN ACTION

TAX ARBITRATION

Because the laws of the 48 states often differ, lawyers try, when they can, to avoid lawsuits involving parties in two or more states. Federal instead of state courts most often have to try such cases. And, involving hearings and witnesses from afar, they are often more difficult than their state cases.

So lawyers urge people with property in two or more states to have wills clearly written to avoid such cases. But sometimes they arise, even with carefully drawn wills, and California has worked out a way to cut down on needless lawsuits.

Suppose two states lay claim to the death tax on John Doe's estate? Which one gets it?

Well, the states could go to court and have it out. And perhaps the estate would pay two sets of taxes. But a cheaper way lies in arbitration, and the California legislature set up an even easier way this year to decide a decedent's domicile for such tax purposes.

Formerly only our Controller, but today an executor or any of the other taxing officials

may also choose to arbitrate. All he has to do is notify all the tax officials, executors, and "interested parties" (which includes heirs).

If this is agreeable, the arbitration goes on: The parties pick the arbitrators. Where there are only two states their tax officials each name an arbitrator who in turn name the third one.

Where three or more states are involved, the officials name tax authorities from three other states, and they each in turn name a member for the arbitration board.

The board has subpoena power and hears all parties concerned. The board's decision is final.

The case can be shortened even more sometimes: Instead of hearings, executors and taxing officials may make binding agreements as to the tax share due to each state.

Note: California lawyers offer this column so you may know about our laws.

Some Vacancies Remain in Adult Center Yule Class

The present interest of adult students in making Yule holiday decorations and gifts has filled to capacity two of Miss Jennie Walton's three classes, in home crafts at the Albany Adult Education Center and has left only a few vacancies in her Wednesday evening class, 7 to 10. These may be filled by those residing in or out of Albany, with registrations being taken in the classroom located on Solano Avenue at the corner of Cornell (next to the Albany City Library).

There are many other inexpensive articles that can be made by using thread spools, worn-out light globes, and tops of tin cans and jars. These, when gilded and decorated, make unusual tree or package decorations.

Miss Walton's home craft classes, though now emphasizing Christmas decorations and gifts because of the interest in these areas, are primarily based throughout the year on creating articles that permanently beautify the home — lamp shades, various types of attractive waste baskets, fabric-covered boxes, the framing of pictures, the making of portfolios of various types, and similar projects. These, like the holiday decorations, are made of materials that can be purchased at small cost, thus furnishing the opportunity for the average person to make gifts and have practical and attractive articles in her home that she could not ordinarily afford.

Democratic Forum Program Tea Set For Thursday, Nov. 14

Members of the Berkeley Women's Democratic Forum are formulating plans for a Program Tea to be given on Thursday, Nov. 14 at 2 p.m. at the home of Mr. and Mrs. Chas. Mel, 1 Montrose Road. This affair is in honor of Winton McKibben, candidate for the State Assembly in the special election for the 18th district to be held on Dec. 10.

Mrs. Jack Kane, 1014 Peralta Ave., has been appointed general chairman and heading the various committees are the following: Mesdames J. J. Rosedale, program; Lawrence Walter, publicity; Reed Smith, decorations; Ramona Taylor and Ray Nash, refreshments; Cleone Montgomery, tickets, and Jay Gittleson, hospitality.

Lucy Candiff, well-known Berkeley writer will be the featured speaker. Mrs. Candiff has written stories for such magazines as Saturday Evening Post, Red Book, McCall's and others. Several of her stories have been filmed for use on television and they have also been included in Best Short Story Anthologies in the past few years. Currently she is the president of the California Writers Club.

TEAMWORK

Observation of naturalists and wildlife experts, reports the National Automobile Club, indicate that coyotes and badgers sometimes work together in hunting and digging out small rodents which they eat.

I wish to convey through the Albany Times many thanks from my wife, May Caswell, and members of the family to the Albany Police and Fire Departments for the most human way they cared for me during a most trying time. "7 minutes on the job... saves my wife hours of drudgery"

California Fish and Game biologist, Elden Vestal, figures it takes him just 7 minutes' work to provide his home with 24 hours of gas and electricity.

"I wish everything was that reasonable. When you think of all the work gas and electricity do in our house, 7 minutes of my time seems little enough to pay for such a necessity." (The Vestals' Fresno home is equipped with 41 appliances.) Mr. Vestal makes a good point: with gas and electricity so cheap in Cali-

fornia, you can afford to use more of it. Most people do... that's why your P. G. and E. bill may be higher than in years past. Yet the price of a unit of P. G. and E. gas and electricity is actually 1/3 lower today than in 1936. Can you think of anything else that costs less than it did 21 years ago?

Aunt Betsy's Answers to 'Problems'

Dear Aunt Betsy:

Why do people drive like mad up to a red light, signal, and slam on their brakes? I hear constant complaints about how driving in traffic these days is enough to make a "psycho" out of the driver. It seems to me that high school driver education should be extended to older motorists.

High speeds when nearing a curve is another common habit. If drivers would just "take it easy" at least 50% of city traffic problems could be eliminated.

EASY DRIVER.

Dear Easy:

You're so right! Anyone who drives a car can quickly train him- self to anticipate sudden stops. When you see a light turning red or pedestrians using a crosswalk a block or two ahead the right foot can be taught to ease up on the gas pedal. There is no excuse for wild- ly screaming brakes most of the time. Not only are nervous systems endangered but human life is at stake.

Dear Betsy:

We have an inter-family prob-

LAW IN ACTION

EXECUTORS

With certain exceptions, the law will let you name anyone "executor" of your will. Your executor must be over the age of majority, must not have been convicted of an infamous crime, and must meet certain other require- ments. The law leaves it

up to you to pick an executor with good judgment. When the "testator," or will- maker, dies, the executor goes to work to carry out his wishes.

The court confirms the executor you name in your will. If you make no will or don't name an executor, the court names an "administrator."

Either the executor or the administrator gathers the estate together and out of it pays off taxes and debts, and sees that the rest of it goes to your heirs as you direct—under court supervision.

Your estate? It is all your property which does not go automatically to others, such as life insurance or property in joint tenancy.

To do his work, your execu- tor may have to back track over years of your active life, looking into business records, investments, bank accounts, and tax returns—to say nothing of contracts, old legal pa- pers, and property titles.

Meanwhile, the executor

may have to manage your business.

As he locates your assets, the executor (or administra- tor) takes them into his con- trol.

Out of your estate your execu- tor pays federal and state income, estate, and gift taxes, as well as sales, franchise, ex- cise, and assorted other busi- ness taxes—sometimes in many states—plus federal and state income taxes on your own earnings. He often deter- mines what property of your estate is to be sold to meet these obligations.

So when you name your executor, pick a good one. Upon his practical good sense rest many of your plans to look after those who will survive you. Of course, you may name a bank or trust company as your executor, or as one of your executors, if you like.

Note: California lawyers offer this column so you may know about our laws.

lent none of us seems able to solve. My stepson and his wife have three darling children. I consider them as my own grandchildren. I love having them visit us but my hus- band and I are at an age when having three lively youngsters around for a long weekend is hard on us.

All summer long the young par- ents have taken out of town trips, each time leaving the little ones with us. It's a delicate subject for me to handle since I want to avoid acting like the typical stepmother or stepgrandmother. My husband doesn't like to say anything either. PERTURBED.

Dear Perturbed:

Since you and your husband dis- like hurting feelings or upsetting the otherwise pleasant relationship you have with the young people, why not plan a few trips of your own and let the son and his wife know in time to make other ar- rangements? Once they realize that you are not always available they will cooperate.

Dear Aunt Betsy:

I'm a girl 13 years old and have no sisters or brothers. We moved to Berkeley this summer and I have to start in at a new school this fall. I'm scared and worried about going to a strange school where I don't know any of the kids. Can you help me?

NEW GIRL.

Dear Girl: Remember that even grown up teachers starting in a new school are "scared and worried." When I start on a new job I feel the same way. Sometimes people act

like they aren't a bit nervous in new surroundings, but it's usually a bluff.

On the first day of school start off being friendly but not too for- ward. Give your classmates time to know you. The ones who will be your closest friends by the end of the term will get a favorable im- pression if you act naturally. Keep

an open mind and don't decide right away which girls and boys you like or dislike.

Dear Aunt Betsy:

I'm a truck driver in my late twenties. On my route there is a salesgirl who kids me a lot and I'd like to date her. Each time I ask for a date she makes a joke out of

it. She doesn't wear an engagement ring but perhaps she's going steady. How can I find out?

INTERESTED.

Dear Interested:

In kidding with the girl you should have learned something about her leisure time hobbies. If it's music, dancing or skating sug- gest a specific program for the date. If she's a jazz fan ask her to go with you to hear a particular orchestra. Remember that "faint heart n'eer won fair lady."

Skill's a joy to any man. — Emerson.

SAFE DRIVING REMINDER

When pulling out from a garage, private driveway or side road, come to a complete stop before entering traffic. The National Automobile Club advises all motorists to signal their intention and then to wait un- til traffic is clear enough to permit proceeding with safety to them- selves and their fellow drivers.

When a man retires and time is no longer a matter of urgent im- portance, his colleagues generally present him with a watch. — R. Sheriff.
